

ALCOLEC[®] 40P

DESCRIPTION: ALCOLEC 40 P is a virtually oil-free powdered lecithin. The powder is medium tan or yellow in color. Silicon dioxide has been added to promote flowability.

SPECIFICATIONS:

Physical State	Powder
Acetone Insolubles	97% Minimum
Acid Value	36 Maximum
Color	Medium Tan/Yellow
Moisture	1.2% Maximum
Phosphatidylcholine	Typically 40%

CHARACTERISTICS/USES: This product is highly concentrated in the natural Phospholipid components of Soybean Lecithin. Alcolec 40P has a bland taste and odor.

Major functionalities Are:

- Instantizing for milk powder, cocoa beverage powders, dessert powders, protein powders, gravy mixes, cake mixes, etc. Recommended usage levels range from 0.2%-0.9%.
- Emulsifying Agent
- Choline Source

LABELING: Lecithin is generally recognized as safe (GRAS) under 21 CFR 184.1400. Labeling should be "SOY LECITHIN". Alcolec 40P is Kosher approved.

PACKAGING: Packaged in a new kraft faced box containing 20 kg (44.09 lbs.) net weight in a heat sealed poly bag.

STORAGE: Keep in sealed shipping container until ready for use. Storage environment should not exceed 75°F (25°C). Protect product from light and moisture. Expected shelf life is a minimum of one year in original unopened container.
