

ALCOLEC®LV30

DESCRIPTION: ALCOLEC LV30 is a food grade, bland, light amber, low viscosity, highly filtered, refined fluid lecithin designed primarily for spray release applications. Its solubility in various oils makes it suitable for oil-based, aerosol spray release systems.

SPECIFICATIONS:

Physical State	Fluid
Acetone Insolubles	50% Minimum
Hexane Insolubles	.01% Maximum
Moisture	.8% Maximum
Acid Value	25% Maximum
Color (Gardner Undiluted)	12 Maximum
Viscosity (cP at 25° C)	1,500 Max

LABELING: Lecithin is generally recognized as safe (GRAS) under 21 CFR 184.1400. Labeling of Alcolec LV30 should be "Soy Lecithin". Alcolec LV30 is Kosher approved.

PACKAGING: Alcolec LV30 is packaged in 55 gallon steel, open head drums with a net weight of 420 pounds.

STORAGE: Recommended storage is temperatures ranging from 60° to 90°F (16° - 32° C). Mild agitation is recommended prior to use. Typical shelf life is approximately 18 months in original unopened containers
