

ALCOLEC® PG

DESCRIPTION: ALCOLEC PG is a virtually oil-free Lecithin granule. It contains the highest percentage of naturally occurring Phospholipids (minimum 98% A.I.) Special processing techniques have also been incorporated to improve the purity by minimizing the residual impurities (Hexane Insolubles).

SPECIFICATIONS:

Physical State	Granular
Acetone Insolubles	98% Minimum
Hexane Insolubles	0.01% Maximum
Moisture	1% Maximum
Acid Value	36 Maximum

CHARACTERISTICS/USES: ALCOLEC PG is a slightly yellow, waxy substance containing about 2% residual soybean oil. ALCOLEC PG is a food grade product.

Major Functionalities Are:

- Emulsifier in Cosmetics and Soaps
- Moisturizer in Skin Care Products
- Wetting Agent in Magnetic Tape Media

LABELING: Lecithin is generally recognized as safe (GRAS) under 21 CFR 184.1400. Labeling of ALCOLEC PG should be "SOY LECITHIN". ALCOLEC PG is Kosher approved.

PACKAGING: ALCOLEC PG is available in a new kraft box holding 20 kgs. (44.09 lbs.) net weight in a heat sealed polybag.

STORAGE: Keep in sealed shipping container until ready for use. Storage environment should not exceed 77°F (25°C). Protect product from light and moisture. Typical shelf life is approximately 2 years in a dehumidified environment in original unopened container.
