

## ALPHA-GPC

-Pure L- $\alpha$ Glycerophosphatidylcholine		<i>Purity</i>	<i>min 95 %</i>
-Raw material with enhanced chemical stability		<i>Residual solvents</i>	
-water soluble		- <i>Ethanol</i>	<i>max. 3000 mg/kg</i>
<i>Applications :</i>		<i>**Method descriptions are available on request.</i>	
- <i>choline source in dietetics</i>			
- <i>substrate for chemical synthesis of phospholipids</i>			
- <i>skin humectant</i>			
<i>Characteristics**:</i>		<i>Packaging:</i>	
<i>Properties</i>	white to creamy powder		1kg welded in coated aluminum foil packets
<i>Identity</i>	conforms to reference	<i>Storage:</i>	Room temperature or below, dry condition, tightly closed, light protected
<i>Heavy metals</i>	max. 10 ppm		
<i>Moisture ( Karl Fischer)</i>	max. 1.5 %
