

ALCOLEC®PS 40 P

-Powdered soybean lecithin containing a high content of phosphatidylserine for use in nutritional supplements

Composition :

Standardized with 40% phosphatidylserine with minor amounts of phosphatidylcholine, phosphatidylethanolamine and phosphatidylinositol. Contains tricalciumphosphate as a flow agent.

Characteristics

Form	powder
Color	light yellow to tan
Moisture	1.5
Peroxide value	max. 5

Bacteriological data

Total plate count	max 5,000 CFU/g
E. coli	negative/g
Salmonella	negative/10 g
Coliformes	negative/0.1g*

*Limit of detection is less than 10 CFU/0.1g

Labeling

Alcolec PS 40 P is generally recognized as safe (GRAS) as a food additive under CFR21 184,1400. The ingredient declaration can read "lecithin" or soy lecithin enriched with phosphatidylserine.

Packaging :

5 kg. in double polyethylene bags.

Storage :

In tightly sealed container. Ideal storage temperature should not exceed 20°C (68°F). Expected shelf life is a minimum of 24 months in original unopened container.
